Proportion of Revenues By Funding Source:

The following table shows the proportion of total revenue purposed to be raised from each funding source. Property taxes form the largest portion of revenues. They provide a stable and consistent source of revenues to pay for many services, such as police and fire protection that are difficult or undesirable to fund on a user-pay basis.

Utilities' rates are the City's second largest reliable component of planned revenues. These revenues pay for services including water, sewer, drainage and solid waste and are charged on a user-pay basis. This basis attempts to fairly apportion utility service costs to those that make use of these services.

Other revenue sources, including sale of services, interest and penalties, government grants and contributions make up the remainder of total revenues. These revenues fluctuate due to economic conditions and City initiatives and in the case of government grants, require approval by senior governments.

Revenue Source	% Total Revenue
Taxation	37%
Utility Rates	18%
Sale of Services	2%
Gov't Grants	23%
Contributions	6%
Other Revenue	12%
Interest & Penalties	2%
	100%

Distribution of Property Taxes Between Property Classes:

The following table provides the distribution of property tax revenue between property classes. The City's primary goal is to set tax rates that are sufficient, after maximizing non-tax revenues, to provide for service delivery; city assets; and maintain tax stability. This is accomplished by maintaining the historical relationship between the property classes and applying the same annual tax rate increase across all Classes. A secondary goal is to set tax rates that are competitive within the region.

Class No	Property Class	o/o Tax Burden
l	Residential	91%
2	Utilities	<1%
5	Light Industry	<1%
6	Business	8%
8	Recreation/Non-Profit	<1%
		100%

Use of Permissive Exemptions:

The City's Annual Municipal Report contains a list of permissive exemptions granted for the year and the amount of tax revenue foregone. Permissive tax exemption is granted to not-for-profit institutions as per City policy and includes exemptions for religious institutions, service organizations and cultural institutions that form a valuable part of our community. Each year organizations can make an application for permissive exemption which are reviewed on a case-by-case basis.
