

## Appendix B – Proposed Snowbirds Commemorative Sign Design

# Snowbirds in White Rock skies

The CF Snowbirds are the Royal Canadian Air Force aerobatics flight demonstration team who have thrilled White Rock audiences with shows high above the pier many times. Thousands of spectators flock to the shores of Semiahmoo Bay whenever the Snowbirds visit.

The Snowbirds consider the skies above White Rock to be ideal for air demonstrations. Not only is it a beautiful location, but the Pier provides a perfect reference point for the pilots to line-up maneuvers and formations when performing above White Rock and Semiahmoo Bay.

Snowbird pilots train rigorously for dozens of annual performances across North America which include up to 50 different formations and maneuvers at speeds of 185 to 590 kilometers per hour!
