Hi,

My question is concerning my building permit application. It will be two years this coming March since I submitted my building permit application . The home was demolished August of 2023 . It is now 5 month since I have demolished the home and still have not received my building permits. I understand the backlog but recently I have stopped getting any communication back from the City and plan reviewer . I submitted the changes they requested on December 5, 2023 . Since December 5 2023 I have sent 7 emails and my architect has sent 3 emails without any type of response . I am not sure what is going on I find it very frustrating and unprofessional at this point. The amount of money I have spent and to not even get a response is unacceptable. What if any thing is being done to help with the building permit application process?. The address of my property is **Redacted** . Thank you for your time.

G **Redacted** Gill
