Significantly	Not being able to easily access the businesses A drop in traffic for them may cause them to have hardships especially after the hard years they have had.		One week	Yes	Positive	Easy accessibility to all businesses Convenient parking close to businesses Minimal Traffic Delays Construction Notification Clear and concise site signage Free Parking	White Rock	Yes, resident	Between 1 and 5 years	Facebook, Instagram	The parking is free in the area so that should not have been in the survey. It is important to keep it free to encourage people to support these uptown business. I'd love to see a vegetated filter strip included to help filter the storm water, important that the oil and pollutants are removed before it reaches the ocean.

Significantly	For businesses, this will result in a deterrence in sales as we've experienced since 2018. We must help mitigate the frustration of our patrons as much as possible to help keep businesses alive during this time.	Yes	One week	Yes	Positive	Easy accessibility to all businesses Convenient parking close to businesses Clear and concise site signage Minimal Traffic Delays Free Parking Construction Notification	South Surrey	Yes, business owner	Between 5 and 10 years	Facebook, Instagram	Just a question about the Saltire building specifically - since its sidewalks are already updated, will the closure on the East side of Johnston happen just before the Saltire sidewalk begins? Will the bus route remain open, hopefully along with one lane for flow of traffic? Also, for feedback - the closure from Russell to North Bluff had some rough points with the flag people yelling at patrons because signage wasn't clear enough. We might consider a different company to work with that'll have the patience to navigate the flow of vehicle and foot traffic. The businesses are tired - this timing is really rough. We have experienced pain since 2018, along with the Covid closures - this is very poor timing on the City's part. Please, please help us mitigate the pain as much as possible.

Moderately	The other streets heading north in this location are awkward. Specifically Fir St, and George St. Fir doesn't go they to 16th and doing a left turn from George onto 16th is problematic. It puts alot of traffic flow onto Martin St. which is awkward already, especially heading south. Traffic wanting to go south have to wait behind people turning left on 16th.
